HEALTH SERVICES – HOSPICE & PALLIATIVE CARE - rev Mar 2025

Explanation:

Hospice — Hospice care involves a team-oriented approach to expert medical care, pain management, and emotional and spiritual support for people facing a life-limiting illness or injury. It is appropriate when it is not possible to cure an illness or a patient chooses not to undergo certain treatments. Hospice must be ordered by a physician and is generally provided in the patient's living environment. It may also be provided in an inpatient hospital setting.

Palliative Care — Palliative care is focused on providing relief from the symptoms and stress of a serious illness and to help patients understand their choices for medical treatment. The goal is to improve quality of life for both the patient and the family. One's primary care physician can provide information about palliative care specialists and will continue to be involved in the patient's care.

A specially-trained team of doctors, nurses and other specialists work together with a patient's other doctors to provide medical, social, emotional and practical support. It is appropriate at any age and at any stage in a serious illness, and it can be provided along with curative treatment. Palliative care may be provided in a hospital, outpatient clinic or in the home.

- **Advance Care Planning Consultation** to discuss values and wishes and to complete Advance Directives.
- **End-of-Life Doula referrals** for non-medical comfort, guidance, and accompaniment for the dying person and their loved ones from as early as initial diagnosis through death and bereavement, including education about palliative and hospice care and other local resources.
- **Home Funeral and Green Burial Consultation** on how to care for your loved one at home in the hours/days after death and/or information about how to have a green burial.
- **Ann Arbor Death Cafe** the 3rd Saturday monthly 11 am - 1 pm, Crazy Wisdom Bookstore, 114 S. Main Street, Ann Arbor. Merilynne Rush facilitates conversation about all things related to death and dying. Not a grief support group, rather a "death positive" event. Participants join in small and large group discussion — no agenda, no presentation. Coffee/tea provided; open to all adults; accessible; confidential. For more information about the Death Cafe movement, visit www.DeathCafe.com.
- **Online conversation with Merilynne Rush** - 1st Saturday monthly 10:30 am. Send an email stating your interest in The Death Cafe to register for link.
- **Resources** links to articles, videos & podcasts, and books plus lists of certified green cemeteries in the U.S. and hybrid cemeteries in Michigan that have a natural burial section.

Fees: Fees vary for training, community presentations, and home consultations. Scholarships and discounts may be available. End-of-Life Care Referrals are free.

The State of Michigan DDHS offers a drug cost comparison tool for the 150 most commonly prescribed medications in Michigan's Medicaid formulary. Costs are for the uninsured - MichiganDrugPrices.com

[Rx Discount Savings Cards and/or Coupons](#)

*Prescription card companies provide Rx discount savings cards, Rx coupons or both; either will provide discounts for prescription medications. One card or coupon may be used multiple times for the same or different medications at one or several pharmacies. Most discount cards or RX coupons may be **printed, texted, or emailed**. Some require enrollment in the program. The cards or coupons are free to use, **even for non-citizens**, but may not always be used along with prescription insurance. Most cards and coupons are accepted in large chain pharmacies although some are accepted only at specific pharmacies. Check with local or community pharmacies to see if they participate in any discount card or coupon programs.*

Note that a phone number or email address is needed to get card or coupon via text or email. Name and address is required to get a physical card mailed.

Note that some pharmacies will not accept discount cards / coupons for certain drug classes such as controlled substances, including opioids.

AARP® Rx Discount Program - Optum Rx

Toll Free: (877) 442-7718

Website: aarp pharmacy.com

May still qualify if you have a discount prescription card or are a senior on Medicare Part D. Has a separate Diabetes Program which includes prescriptions and supplies.

Hours: Call for business hours.

Fees: \$8.30 per prescription, plus \$4.50 postage if mailed to the home

Drug / Pharmaceutical Company Assistance Programs

Drug or pharmaceutical companies — GlaxoSmithKline, Johnson&Johnson, Pfizer, and many others — offer assistance by supplying some of their products for free or at discounts.

The easiest way to find out if a specific medication is covered is to visit the [Needy Meds](#) website and search by drug name or call **Toll Free** (800) 503-6897. The search results show whether the drug is a brand name or generic, and, if generic, whether it is part of the **\$4 Prescription Discount Program** and at which stores.

Entries show, via icons, which assistance program/s cover the drug; whether there are \$4 generics; if there are coupons or rebates; a link to support pages on the product website; links to videos, package inserts, medication guides and more; and a link to [Drugs.com](#) for additional information.

For the assistance program which covers the drug, listed are the eligibility requirements, the application process, and the medication itself — amount/supply, delivery, refills, limits, and re-application, and the type of assistance.

One can also Search Coupons by drug name to find special discount cards / coupons available for a specific drug.

Be sure to read the fine print for limitations on the number of prescriptions covered and/or exclusions on the programs — many will not help with costs if the recipient is covered by Medicare.

Explanations:

Skilled Home Health Care - Billable to Medicare: Medicare will pay for some home care if the patient meets "homebound" criteria, as decided by a physician, and requires care by a skilled professional (R.N., physical therapist, speech therapist). If the patient meets these guidelines, as decided by a physician, Medicare will also pay for a home health aide who can assist on a limited basis with meal preparation, bathing, and other non-skilled home care needs, for as long as skilled care is required.

Non-Skilled Home Care: These agencies provide caregivers who can offer a wide range of services for private pay: for example, bathing, personal hygiene, meal preparation, companionship, light housekeeping, and transportation. Call each agency for a specific list of services. May offer some services for dementia care paid by Medicare GUIDE (Dementia program) including caregiver support and respite care.

Care Management: Planning, generating and organizing care and services in collaboration with the client and his or her support system and/or a set of activities intended to improve patient care and reduce the need for medical services by enhancing coordination of care, eliminating duplication, and helping patients and caregivers more effectively manage health conditions. More information can be found at [AgingLifeCare.org](https://www.AgingLifeCare.org).

Helpful resources:

"Hiring Guide — Non-Medical Home Health Care Agencies" - ask for this handout which was created by Turner Geriatric Center social workers and TSWP staff.

[Home Health Compare](#): From Medicare.gov, this site provides information about the quality of care provided by "Medicare-certified" home health agencies throughout the nation. "Medicare-certified" means the home health agency is approved by Medicare and meets certain federal health and safety requirements. Can help in choosing a quality home health agency that has the skilled home health services needed.

[Home Health Agency Checklist](#) (Medicare.gov, 1 p.)

Medical Alert Systems: Wearable devices can help summon assistance in an emergency. [AARP](#) (November 2024) and [AgingInPlace.org](#) (April 2025) have guides on selecting a system. There is also on information several monitored systems — Consumer Reports "[Best Medical Alert Systems](#)" (April 2024) — available at your local library, AgingInPlace.org "[4 Best Medical Alert Systems of 2025](#)" (May 2025) as does PC Magazine "[The Best Medical Alert Systems for 2026](#)" (January 2026), respectively. (These and other technologies are **not** listed in this resource directory.)

Be sure that the device/s and associated smartphone apps will work on 5G cellular networks, as 4G started being phased out in 2022.

HOUSING – NURSING HOMES - rev May 2025

Explanation: Nursing Homes are medical facilities which are highly regulated by the State and Federal governments, and provide two levels of care:

- Long-term care is for patients who are unable to recover from an illness or injury. Their conditions are chronic. Payment is private or may be covered by Medicaid, if eligibility requirements are met.
- Short-term care provides rehabilitation by skilled therapists and licensed nurses following an illness or injury. Medicare or Medicaid typically covers payment when eligibility requirements are met.

The Housing Bureau for Seniors - Michigan Medicine

Phone: (734) 998-9339

Email: housingbureauseniors@umich.edu

Offers information on nursing homes, housing and other care options and helps prevent eviction and foreclosure.
